What our Students are saying

We are proud to see our students progressing and even prouder when they share their experiences. Here's what some of them had to say recently

Best Choice!

As someone who had no experience in trading whatsoever Simple-FX was by far the best choice to have chosen to be my guide to learning about Forex Trading.

You are not only learning a new skill from the amazing step by step training modules that you are able to rewatch should you need, but you become part of an amazingly supportive community.

By far the best decision I have made by choosing Richard as my mentor at Simple-FX.

If your looking to start your trading...

If your looking to start your trading journey or 'simply' improve your knowledge and looking for genuine education this is the place! The education portal is excellent, professionally laid out and if your unsure or have any queries drop your query in the chat and one of the guys in there are quick to help out.....even at weekends. The education portal is superb and the beauty of it is you can watch it over and over again, Rich the founder and owner is clearly, genuinely and extremely passionate about the teaching side and constantly looks for ways to improve the education, he has also been in the dark side of the trenches which is inspiring and clearly doesn't want his students to go there 🙏

The live coffee sessions are not something I've experienced before and are so informative and helpful, if you miss them no problem as you can catch up on the recording, Rich talks you through his analysis which is great, creating light bulb moments. I myself tried to learn previously by copy trading but after learning with Simple fx this is the way to learn for sure.

Your success is what drives us. Keep the feedback coming and keep pushing forward.

Looking Back, Moving Forward – Richard's Trading Recap

Good afternoon everybody welcome to our newsletter, July/August edition, massive welcome to all the new people that are joining us and a huge thank you to those that are already with us. July has been a pretty decent month for traders despite the summer, usually summer is pretty quiet but it's been okay. Donald Trump has been very active in the markets and I guess we have him to thank. You will have seen since the start of the year, we have been very busy trying to improve the service and build on it adding new programs to the lineup, this being trading for tradesmen and the frustrated trader. I look forward to delivering more quality and affordable education. I've said it a million times I have the best job in the world. It's so rewarding and we get to have a bit of fun along the way. See you all in the chat room have a beautiful day.
